FLOOR COATING SYSTEMS

Brilliant CT-2MU

Striping System

- ① Prepared Concrete
- ② Macropoxy
- ③ Urethane

System Description:

The Brilliant CT-2MU is a two layer striping system. The system begins with a layer of macropoxy and is top coated with a layer of urethane.

System Advantages:

- Quick cure/return to service
- Low VOC
- Low odor
- Highly chemical resistant
- Low maintenance

System Installation Overview:

1. Clean concrete so it is free from any oil, dust, grease, and dirt.
2. Apply a layer of Macropoxy at 15 mils.
3. Apply a top coat of Urethane at 3-5 mils.
