# CHARACTERISTICS

**EASY TO CLEAN & MAINTAIN** - Our epoxy floor solutions create a smooth, seamless surface that does not absorb liquids making them resistant to stains and easy to wipe clean. Cleaning pet waste, fur, and food spills is quick and efficient, minimizing bacterial growth and odors.

**SANITARY & HYGIENIC** - The seamless nature of our floors means there are no joints or seams where dirt, bacteria, and moisture can accumulate. Our floor systems are also resistant to mold and mildew, which can be a concern in pet areas where spills or wet conditions may occur.

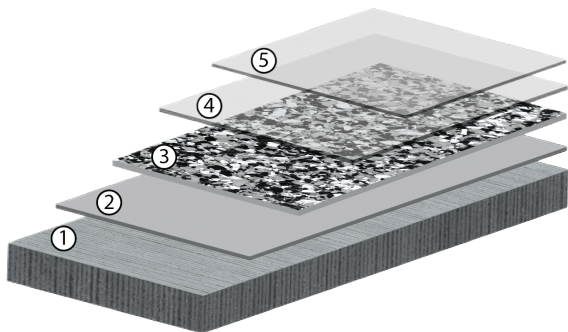

**DURABILITY** - Our flooring solutions are incredibly strong and resistant to wear and tear, which is important in high-traffic areas such as pet facilities. These floors can withstand the traffic of large numbers of pets and people walking through the space.

**ODOR CONTROL** - Epoxy floors can be treated to provide odor-resistant properties, preventing any unpleasant smells from becoming trapped in the flooring. This is essential in a pet facility where pets may experience accidents.

# OUR SOLUTIONS

## Broadcast- BC-4EFPP

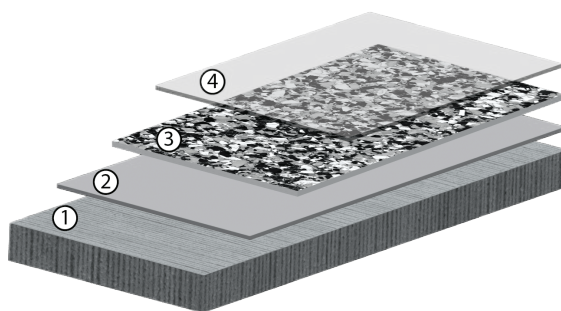

1. Prepared Concrete
2. 100% Solids Epoxy
3. Fully Broadcasted Acrylic Flakes
4. Polyaspartic
5. Polyaspartic

Impact  
Resistance

## Broadcast- BC-3EFMma
